

16. (New) The snow board of claim 15, wherein the means for connecting bindings comprises inserts.

17. (New) The snow board of claim 15, wherein the means for connecting bindings comprises a rail extending longitudinally of the elongate web and includes means for adjusting the position of the bindings.

18. (New) The snow board of claim 15, further comprising spacers of a height substantially equal to the protrusion of the elongate web and attached to one of the gliding members and the bindings.

#### **Remarks**

While they are believed to improve Applicant's specification and claims in formal respects, none of the proposed amendments adds new matter to Applicant's original disclosure.

Respectfully submitted,
